This morning at 8,9 and 10 there were some extremely loud detonations- called in compliant.

At 11 am I was at Summerfield Baptist Church and close to the air monitor that Clean Harbors had nearby. I waited but did not hear any detonations..

Then I drove to Colfax where Governor John Bel Edwards and others were at a dedication ceremony. By 11:10 I was there. Could it be there were no loud detonations because the Governor was there? Maybe they came while I was driving? Maybe CH waited until later, but the 3 detonations that I called in complaints about were on the hour.

**Just a further thought. The ceremony was the Colfax Memorial Dedication. This was in memory of the blacks that were killed in Colfax 150 years ago. Descendants of those people were present today and are suffering from the hazardous waste that comes into and onto our community. Light wind today was from a northerly direction and maybe we all got exposed to some hazardous waste that came from CH before the 11 am ceremony.

Brenda
